

MIX MANCHESTER

# HAVE YOUR SAY

## PUBLIC CONSULTATION

A planning application for Phase 1 of MIX MANCHESTER is being prepared by the joint venture partnership: Manchester City Council (MCC), Greater Manchester Pension Fund (GMPF), Manchester Airports Group (MAG) and Beijing Construction Engineering Group (BCEG).

A six-week public consultation is currently underway to listen to your comments and gather the feedback of local residents. All comments will be reviewed and reflected in the final planning application where appropriate.

Last year, we requested feedback on the Strategic Regeneration Framework (SRF) for MIX MANCHESTER. Since then, our team of professionals has been working on the detailed proposals for Phase 1 – and once again we need your feedback.

Phase 1 of MIX MANCHESTER will deliver three adaptable Mid-Tech units, creating the space that Greater Manchester's innovation sector needs to incubate ideas and accelerate growth. Designed to foster collaboration and scalability, the development will enable businesses to thrive within a dynamic, future-proofed ecosystem.

Our website provides in-depth detail on our proposals for Phase 1 of MIX MANCHESTER. You can also access the draft SRF for the wider development, which informs the overall planning approach we're taking.
